Software Engineer | Web & Application Development Specialist

About Me:

I am a seasoned Software Engineer with a keen eye for detail and a passion for creating exceptional online experiences. My expertise lies in web development, where I excel in crafting bespoke solutions for clients using a diverse range of platforms such as WordPress, Wix, Shopify, and Webflow. With a focus on custom themes, RESTful API integrations, and seamless project management, I thrive in turning concepts into tangible, user-friendly digital solutions.

Technical Skills:

- **Languages:** Proficient in JavaScript (ES6+), HTML5, Php, CSS3
- **Frameworks/Libraries:** Bootstrap, Sass, Experienced with React.js, jQuery
- **Content Management Systems (CMS):** Adept at custom WordPress development, Wix, Webflow, GHL, and Shopify customization
- **Design-to-Code:** Skilled in translating Figma designs into responsive HTML and JavaScript code
- **Styling:** Expertise in Sass (SCSS) and CSS-in-JS for consistent and aesthetically pleasing designs
- **Project Management:** Well-versed in Agile methodologies, Scrum, and Jira for effective project handling
- **Version Control:** Experienced with Git, GitHub, and GitLab for collaborative development

Key Achievements:

- **Project Leadership:** Led and successfully delivered multiple projects, ensuring high-quality code and adherence to project timelines.
- **WordPress Mastery:** Developed and implemented custom WordPress themes, enhancing website functionality and visual appeal for diverse clients.
- **E-commerce Solutions:** Successfully optimized online stores on Shopify and Wix, resulting in improved user experience and increased conversion rates.
- **Design-to-Code Excellence:** Translated complex Figma designs into pixel-perfect, responsive HTML and JavaScript code, ensuring seamless user experiences across devices.
- **Collaborative Integration:** Collaborated with cross-functional teams to integrate RESTful APIs, enhancing data exchange and system interoperability.
